## LED by Times Square Lighting

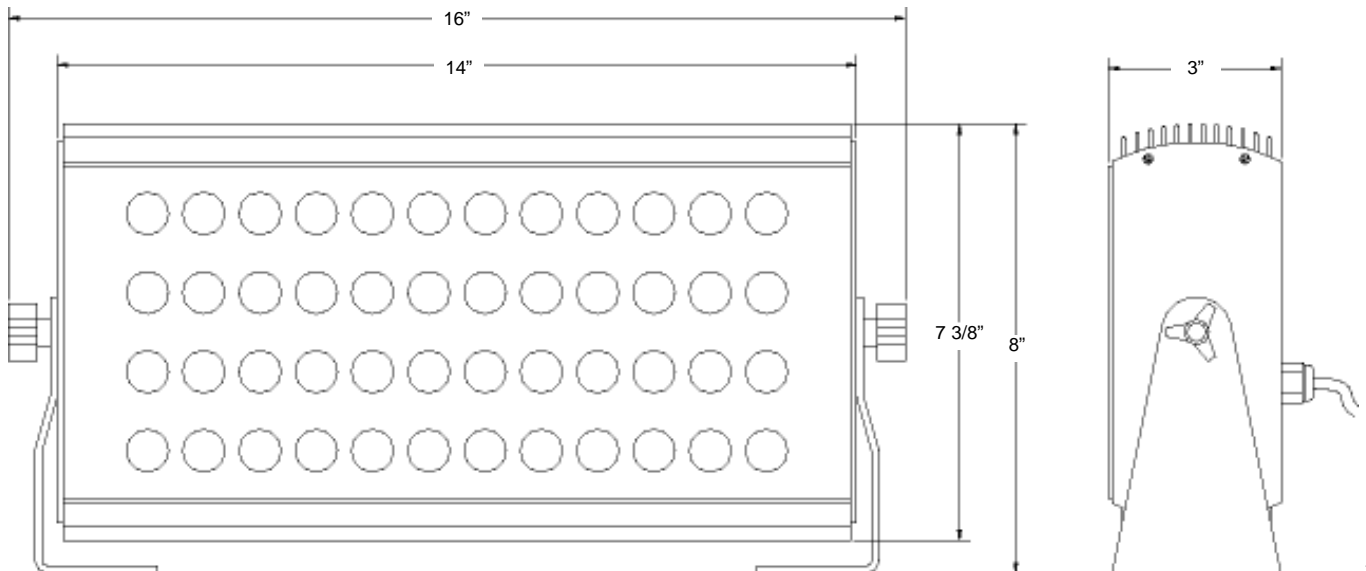

## TSL-HO-RGB

LED color changing fixture with patented control technology. The TSL-HO is the latest product development of Times Square Lighting for large-coverage illumination. This powerful instrument provides high output color saturation ranging from deep, rich tones to subtle pastels. The TSL-HO uses a patented control technology that insures smooth transitioning across the dimming curve (SLMCTL-WTFM). The TSL-HO-RGB can run 3 independent DMX channels allowing separate control of the red, green and blue banks. With its combination of performance, operational efficiencies, reliability and overall value it shines brightly against other top manufacturers' of color wash fixtures.

### Features:

- 48 high output (1.2W) RGB LEDs per linear foot
- DMX 512 control
- 1 ft., 2 ft. or 4 ft. wet or dry location models
- Smooth transitioning
- Full spectrum of user-adjustable hues
- Simple installation, 110 VDC

Manufactured in the USA - IBEW

Last updated 07/22/08.

## Models

---

TSL-HO-RGB1	1' x 48 LEDS RGB
TSL-HO-RGB2	2' x 96 LEDS RGB
TSL-HO-RGB4	4' x 192 LEDS RGB

## Technical Specifications

---

For 1 ft., 2 ft., & 4 ft. models

### Input Voltage

110/220VAC

### Input Current

3.0A, 6.0A, 12.0A

## Mounting Options

---

### TA2DMX

Track adapter for DMX track

### US1

Unistrut adapter. (2)

### MN

Medium duty pipe clamp for up to 2"  
O.D. (2)

## Accessories

---

MC1616	Controller
25FTDMX	25' Remote Cable
50FTDMX	50' Remote Cable
100FTDMX	100' Remote Cable
