The LEDGU is a cleanly styled fixture that will blend into most architectural spaces. The hinged front easily allows you to add accessories to the fixture and to add magnetic Snaps to the Soraa lamp. The TSGU features sturdy steel construction and a vented back.

By utilizing Soraa's Snap System, there are unlimited possibilities for customizing this fixture. Options include the ability to field change the beam angle (Beam Spreader Snap), alter color temperature (CTO Snap), or to add a louver. Color Snaps can be used to produce brilliant hues of any color that Rosco or Lee offer.

The Enhance Lens Snap can increase the vividness of warm colors (including red, orange and pink and greens). Aim Snaps can bend the beam to a maximum deflection angle of 20°. Linear Snap Lenses can alter the beam to act as a wall wash.

Features:

- Precision optics delivers high quality smooth gradient light beam patterns
- Industry leading lumen maintenance and color point stability
- Snap lenses provide numerous customization options including adding color
- 120V AC
- Power factor 0.93
- Dimmable with forward and reverse phase dimmers
- Internal self-locking yoke
- Numerous mounting options
