

W575 575W

Quartz Worklight

5 Holt Drive,
Stony Point, NY 10980
845-947-3034
info@tslight.com

The W575 is a compact wide angle floodlight that utilizes popular medium two-pin tungsten halogen lamps. This unit is ideal for stage and studio use replacing larger higher wattage Scoop lights and Cyc lights. The W575 can also be used in galleries, museums and on the exhibit floor when a wide pool of light is required.

The W575 features a removable color frame holder, and a multi-position yoke. These features, coupled with an integral glass safety shield, make it ideal for stage and architectural applications. Available in black, white and silver finishes, custom colors are available upon request at an additional charge.

Manufactured in the USA - IBEW
