

AR111

SORAA LED

5 Holt Drive,
Stony Point, NY 10980
845-947-3034
info@tslight.com

Features an 18.5 Watt Soraa AR111 lamp that produces a tight, narrow beam at 9° with a crisp edge. It is ideal for hospitality, restaurant, retail and artwork lighting. It is available in 95 CRI, and has a light output that mirrors a 75 Watt 12V AR111 lamp.

By utilizing Soraa's Snap System, there are unlimited possibilities for customizing this fixture. Options include the ability to field change the beam angle (Beam Spreader Snap), alter color temperature (CTO Snap), or to add a louver. Color Snaps can be used to produce brilliant hues of any color that Rosco or Lee offer.

The Enhance Lens Snap can increase the vividness of warm colors (including red, orange and pink and greens). Aim Snaps can bend the beam to a maximum deflection angle of 20°. Linear Snap Lenses can alter the beam to act as a wall wash.

Additional fixture features include an adjustable head and hinged front for easy re-lamping. Internal accessory holder accepts louvers, barndoors, hoods and a variety of filters. Available in standard black, white and silver finishes. Custom colors are available by request and at an additional charge.
