The SS48 is a 48-channel dimming console for the purpose of managing the levels of your conventional light entertainment system. With lots of built-in, reprogrammable scenes and chases, you can quickly and easily create and manage your light show. This portable control system is perfect for live entertainment stages, schools, theaters or for any professional event that requires conventional dimming control of 48 channels or less.

This 48-channel dimming console will give you the power to create the light show of a lifetime. Tying in your audio and visual production, the scene setter incorporates a line level input that will synchronize the music with your par can lights while also allowing for individual adjustment to each of your pars with its 48 adjustable channel faders.

With up to 4,300 programmable scenes and 96 programmable chases (all password protected) and 1,000 scenes per chase, you can rest easy that your unique set-up is kept secure while it runs 12 chases simultaneously. Adjust your fixtures in either percentage or DMX value to achieve the dimming intensity that you desire. With its low weight and bright display, you'll have no trouble moving this controller where it's needed and getting it set up in no time. Master your entire entertainment system with the Scene Setter DMX Dimming Console, and create a light show your crowd won't forget.
